CALCIUM SILICATE

CELLULAR GLASS

CEMENTS

CERAMIC FIBER CLOTH

COATINGS

CONSUMABLES (ALL TYPES)

CRYOGENIC WOOL

CURTAIN WALL INSULATION

DUCT INSULATION & FINISHES

ELASTOMERIC SHEETS AND ROLLS

ENCAPSULANTS & SURFACTANTS

EXPANDED PERLITE

FRP PANEL & ACCESSORIES

FRP/TRIM ADHESIVES

FABRICATION EQUIPMENT

FABRICATION SERVICES

- CELLULAR GLASS
- CURVED SIDEWALL SEGMENTS
- CUT & CLIP BANDING
- CUT & CURL PVC PRODUCTS
- CUT & ROLL METAL PRODUCTS
- DIE CUTTING
- DISHED HEADS
- INSULATION FITTINGS, VALVES,
- FLANGES (ALL TYPES)

- METAL FITTINGS, VALVES FLANGES (ALL)

- O.E.M PRODUCTS

- PHENOLIC FOAM

- PIPE & TANK WRAP

- PIPE COVERING (ALL TYPES)

- POLYISOCYANURATE

- POLYSTYRENE

- REMOVABLE/REPLACEABLE COVERS

- SLITTING

- URETHANE

Industrial Insulation Services

Pipe, Fittings, Duct and Tank Insulation

Fabricated insulation materials for applications ranging from cryogenic to high temperature, acoustical and fire protection needs.

Jacketing materials are applied or supplied, to meet vapor barrier perm ratings, UV exposure, physical abuse requirements and esthetics. We also provide roll and sheet metal, preformed metal gores, fitting covers, as well as PVC cut n curl jacketing and molded fitting covers.

Vessel Heads, Metal and Pipe Supports

Fabricated engineered HATS[®] for pressure vessels and tanks with high performance insulation materials including: cellular glass, polyisocyanurate, polystyrene, calcium silicate, perlite and mineral wool.

Pre-fabricated companion metal finish materials ensure a proper fit, finished appearance and optimal service life performance of the tank or vessel head insulation system.

Fabricated pipe supports provide superior service performance with a large bearing surface to reduce insulation stress failures that cause thermal shorts and reduced service life.

Commerical Insulation, Acoustical and Fire Protection Services

Fabricated pipe, fittings, duct, tank segments, heads and insulated pipe supports are also supplied on commercial construction projects. Refer to the previous industrial section and product datasheets for more information.

Building Envelope / Curtain Wall Insulation - Fabricated curtain wall insulation and fire containment systems include pre-cut curtain wall, mullion covers, safing and firestop materials.

Curtain wall panels can be supplied with hardware installed ready to fasten to framing members. These systems provide substantial labor savings over field cut and fit materials. Materials are per UL fire rated assembly as required.

PG Board TAF™ is designed for parking garage and other applications to satisfy Code requirements for insulation and fire exposure requirements where adjacent space is conditioned. A semi rigid, non-combustible, high temperature insulation finished with a bright white reinforced facing, PG Board TAF reduces heating, cooling and lighting costs.

Marine Insulation

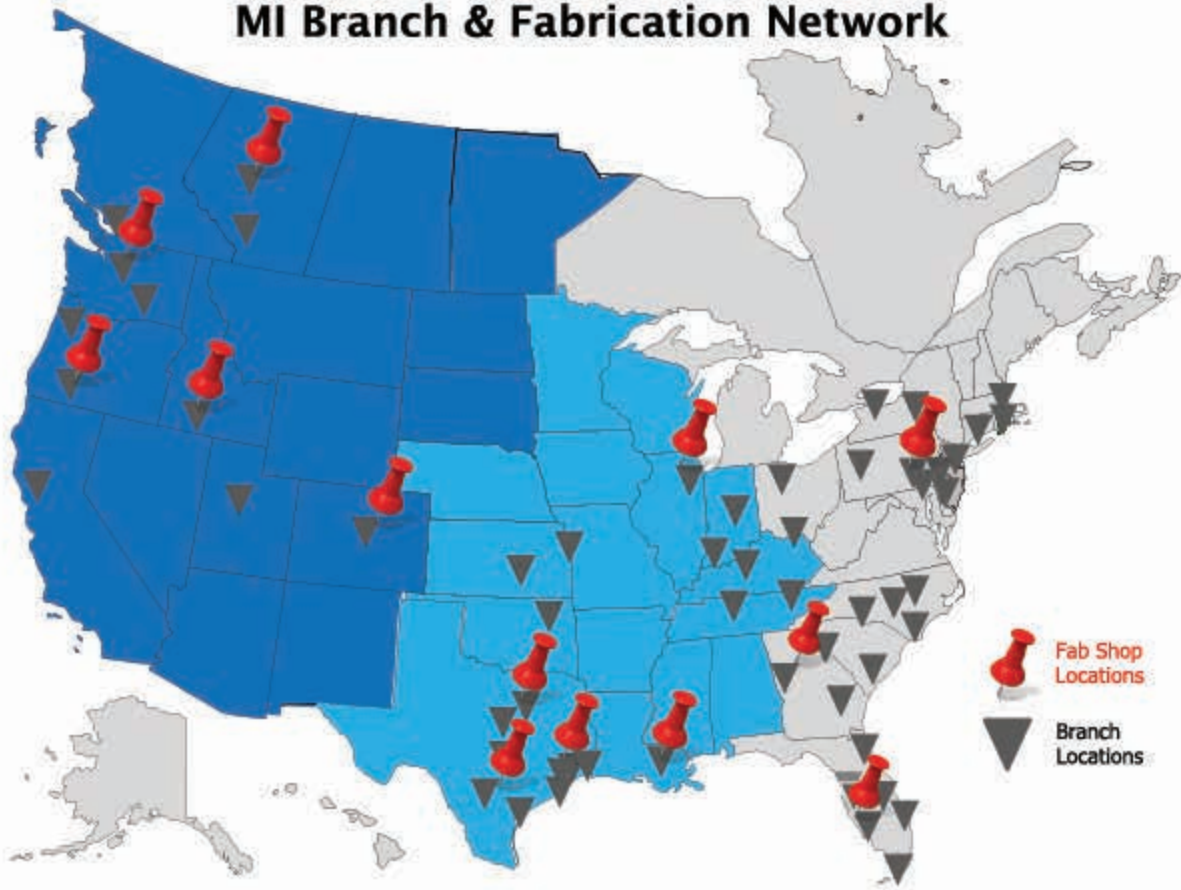

A complete range of US Coast Guard and IMO certified products including: pipe duct, tank, equipment insulation and hull board for acoustical, thermal and fire production applications.

Metal Building Insulation (MBI) - Fiberglass laminated with a variety of facing materials to provide durable, energy efficient insulation systems to satisfy project and code requirements for pre-engineered steel and post frame metal clad building systems.
